```

The diagram illustrates an inheritance relationship. At the top is a base class box with a light gray background, containing the text 'boost::statechart::event< EvWaypoint178 < TSource, TOrthogonal > >'. Below it is a derived class box with a darker gray background, containing 'cl_move_base_z::EvWaypoint178 < TSource, TOrthogonal >' and a public attribute '+ waypointIndex'. A blue arrow points from the top of the derived class box to the bottom of the base class box, indicating that the derived class inherits from the base class.
