

```
boost::statechart::  
event< MoveGroupMotionExecution  
Succeeded< TSource, TObjectTag > >
```

The diagram illustrates an inheritance relationship. A blue arrow points from the 'moveit_z_client::MoveGroupMotionExecutionSucceeded' class to the 'boost::statechart::event' class. Both classes are represented as boxes with three horizontal compartments. The top compartment of each box contains the class name and its template parameters. The bottom two compartments are currently empty.

```
moveit_z_client::MoveGroup  
MotionExecutionSucceeded  
< TSource, TObjectTag >
```
