The diagram consists of two rectangular boxes. The top box is white with a thin grey border and contains the text 'boost::statechart::event< EvWaypoint200< TSource, TOrthogonal > >'. It is divided into three horizontal sections by thin grey lines. The bottom box is grey with a thick black border and contains the text 'cl\_move\_base\_z::EvWaypoint200< TSource, TOrthogonal >' followed by '+ waypointIndex' on the next line. It is also divided into three horizontal sections by thin black lines. A blue arrow with an open triangular head points from the top of the bottom box to the bottom of the top box, indicating a generalization relationship.
