

simple_grasping::extract
Shape

```
graph LR; A[simple_grasping::extract<br/>Shape] --> B[smacc::run];
```

A diagram showing a call to the function `simple_grasping::extract` with the argument `Shape`. A blue arrow points from this call to a box labeled `smacc::run`, indicating that the function call triggers the execution of the `smacc::run` process.

smacc::run
