

```
smacc::event_generators  
::EgConditionalGenerator  
::onEntry
```

```
graph LR; A["smacc::event_generators  
::EgConditionalGenerator  
::onEntry"] --> B["smacc::event_generators  
::EgConditionalGenerator  
::checkPredicateAndPost"]
```

A diagram showing a call from the `onEntry` method of the `smacc::event_generators::EgConditionalGenerator` class to the `checkPredicateAndPost` method of the same class. The call is represented by a blue arrow pointing from the left box to the right box.

```
smacc::event_generators  
::EgConditionalGenerator  
::checkPredicateAndPost
```
