

smacc::ClientHandler
::createComponent

smacc::ISmaccComponent
::createSiblingComponent

smacc::ISmaccClient
::createNamedComponent

```
graph LR; A[smacc::ClientHandler::createComponent] --> C[smacc::ISmaccClient::createNamedComponent]; B[smacc::ISmaccComponent::createSiblingComponent] --> C;
```

The diagram illustrates a mapping or inheritance relationship. On the left, there are two white rectangular boxes. The top box contains the text 'smacc::ClientHandler' followed by '::createComponent' on a new line. The bottom box contains 'smacc::ISmaccComponent' followed by '::createSiblingComponent' on a new line. On the right, there is a single gray rectangular box containing 'smacc::ISmaccClient' followed by '::createNamedComponent' on a new line. Two blue arrows point from the right side of the left boxes to the left side of the gray box. The top arrow originates from the right side of the top white box and points to the left side of the gray box. The bottom arrow originates from the right side of the bottom white box and points to the left side of the gray box.
