

sm\_dance\_bot\_strikes  
\_back::cl\_service3::CbService3  
::onEntry

```
graph LR; A["sm_dance_bot_strikes  
_back::cl_service3::CbService3  
::onEntry"] --> B["smacc::client_bases  
::SmaccServiceClient::call"]
```

A diagram showing a call from a function to a client base. On the left, a gray box contains the text "sm\_dance\_bot\_strikes", "\_back::cl\_service3::CbService3", and "::onEntry". A blue arrow points from the right side of this box to the right side of a white box on the right. The white box contains the text "smacc::client\_bases" and "::SmaccServiceClient::call".
