

franka::Gripper::readOnce

```
graph LR; A[franka::Gripper::readOnce] --> B[franka::anonymous_namespace<gripper::cpp>::convertGripperState];
```

The diagram consists of two rectangular boxes connected by a dark blue arrow pointing from left to right. The left box has a light gray background and a black border, containing the text 'franka::Gripper::readOnce'. The right box has a white background and a black border, containing the text 'franka::anonymous_namespace {gripper::cpp}::convertGripperState'.

franka::anonymous_namespace
{gripper::cpp}::convertGripperState
