

MyString::Set

```
graph LR; A[MyString::Set] --> B[MyString::CloneCString]
```

A diagram showing a relationship between two C++ identifiers. On the left, a gray rectangular box contains the text 'MyString::Set'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'MyString::CloneCString'. Both boxes have a black border.

MyString::CloneCString
