

```
boost::statechart::  
event< EvWaypoint27  
< TSource, TObjectTag > >
```

The diagram shows two class-like boxes. The top box is white with a thin black border and contains the text 'boost::statechart::event< EvWaypoint27 < TSource, TObjectTag > >'. The bottom box is gray with a thick black border and contains the text 'move\_base\_z\_client::EvWaypoint27< TSource, TObjectTag >' followed by a plus sign and 'waypointIndex' on the next line. A blue arrow with an open triangular head points from the bottom box to the bottom of the top box, indicating inheritance.

```
move_base_z_client  
::EvWaypoint27< TSource,  
TObjectTag >
```

```
+ waypointIndex
```
