

```
franka_example_controllers  
::ForceExampleController::init
```

```
graph LR; A[franka_example_controllers::ForceExampleController::init] --> B[franka_example_controllers::ForceExampleController::desiredMassParamCallback]
```

A diagram showing a call from an initialization function to a callback function. A grey box on the left contains the text 'franka_example_controllers::ForceExampleController::init'. A blue arrow points from this box to a white box on the right. The white box contains the text 'franka_example_controllers::ForceExampleController::desiredMassParamCallback'.

```
franka_example_controllers  
::ForceExampleController  
::desiredMassParamCallback
```
