

submodules/simple_grasping
/include/simple_grasping
/object_support_segmentation.h

```
graph BT; A["submodules/simple_grasping/src/basic_grasping_perception.cpp"] --> C["submodules/simple_grasping/include/simple_grasping/object_support_segmentation.h"]; B["submodules/simple_grasping/src/object_support_segmentation.cpp"] --> C;
```

This diagram illustrates the relationship between three files in a project. At the top is a header file, 'object_support_segmentation.h', located in the 'include/simple_grasping' directory. Below it are two source files: 'basic_grasping_perception.cpp' and 'object_support_segmentation.cpp', both located in the 'src' directory. Blue arrows point from each source file to the header file, indicating that both source files include this header.

submodules/simple_grasping
/src/basic_grasping_perception.cpp

submodules/simple_grasping
/src/object_support_segmentation.cpp
