

boost::statechart::
event< EvFail >

```
classDiagram
    class boost_statechart_event["boost::statechart::event< EvFail >"]
    class sm_ferrari_evfail["sm_ferrari::EvFail"]
    boost_statechart_event <|-- sm_ferrari_evfail
```

The diagram consists of two class boxes. The top box, representing the base class, is divided into three horizontal sections. The top section contains the text 'boost::statechart::' on the first line and 'event< EvFail >' on the second line. The bottom two sections are empty. The bottom box, representing the derived class, is also divided into three horizontal sections. The top section contains the text 'sm_ferrari::EvFail'. The bottom two sections are empty. A blue arrow with an open triangular head points from the top section of the bottom box to the bottom edge of the top box, indicating an inheritance relationship.

sm_ferrari::EvFail
