

```
boost::statechart::  
event< EvWaypoint31  
< TSource, TObjectTag > >
```

The diagram shows two class boxes. The top box is white and contains the text 'boost::statechart::event< EvWaypoint31 < TSource, TObjectTag > >'. The bottom box is gray and contains the text 'move_base_z_client::EvWaypoint31< TSource, TObjectTag >' followed by a new line '+ waypointIndex'. A blue arrow with an open triangle head points from the bottom box to the top box, indicating inheritance.

```
move_base_z_client  
::EvWaypoint31< TSource,  
TObjectTag >
```

```
+ waypointIndex
```
