

cpp.ast.AstBuilder.Handle
Error

```
graph LR; A[cpp.ast.AstBuilder.Handle Error] --> B[cpp.ast.reversed]
```

A diagram showing a call from a function to a variable. On the left, a gray rectangular box contains the text 'cpp.ast.AstBuilder.Handle Error'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'cpp.ast.reversed'.

cpp.ast.reversed
