The diagram shows a base class box at the top and a derived class box at the bottom. The base class box has three horizontal compartments: the top one contains the text 'boost::statechart::event< EvWaypoint125 < TSource, TObjectTag > >', and the other two are empty. The derived class box has three horizontal compartments: the top one contains 'cl\_move\_base\_z::EvWaypoint125 < TSource, TObjectTag >', the middle one contains '+ waypointIndex', and the bottom one is empty. A blue arrow with an open triangle head points from the top of the derived class box to the bottom of the base class box, indicating inheritance.
