

```
boost::statechart::  
event< EvWaypoint168  
< TSource, TObjectTag > >
```

The diagram illustrates an inheritance relationship. A blue arrow points from the bottom class to the top class. The top class is a template for an event in the boost::statechart namespace. The bottom class is a specialization of this event template, located in the cl_move_base_z namespace, and it includes a public member variable named waypointIndex.

```
cl_move_base_z::EvWaypoint168  
  < TSource, TObjectTag >
```

```
+ waypointIndex
```
