

```
boost::statechart::  
event< EvWaypoint194  
< TSource, TObjectTag > >
```

The diagram shows two class-like boxes. The top box is white with a grey border and contains the text 'boost::statechart::event< EvWaypoint194 < TSource, TObjectTag > >'. It has two empty horizontal compartments below the text. The bottom box is grey with a black border and contains the text 'cl_move_base_z::EvWaypoint194 < TSource, TObjectTag >' followed by '+ waypointIndex' in the second compartment. A blue arrow points from the top of the bottom box to the bottom of the top box, indicating inheritance.

```
cl_move_base_z::EvWaypoint194  
  < TSource, TObjectTag >
```

```
+ waypointIndex
```
