The diagram illustrates an inheritance relationship. The base class, `boost::statechart::event< EvWaypoint204< TSource, TObjecTag > >`, is represented by a white box with a black border. The derived class, `cl_move_base_z::EvWaypoint204< TSource, TObjecTag >`, is represented by a gray box with a black border. A blue arrow with an open triangle head points from the derived class to the base class, indicating inheritance. The derived class box contains two sections: the top section for the class name and the bottom section for the public attribute `+ waypointIndex`.
