

```
boost::statechart::  
event< EvWaypoint209  
< TSource, TObjectTag > >
```

The diagram shows two class-like boxes. The top box is white and contains the text 'boost::statechart::event< EvWaypoint209 < TSource, TObjectTag > >'. The bottom box is gray and contains 'move_base_z_client::EvWaypoint209< TSource, TObjectTag >' and '+ waypointIndex'. A blue arrow with an open triangle head points from the bottom box to the top box, indicating inheritance.

```
move_base_z_client  
::EvWaypoint209< TSource,  
TObjectTag >
```

```
+ waypointIndex
```
