

```
sm_fetch_two_table  
_whiskey_pour::recovery  
_screw::StRecoveryScrewThird  
::runtimeConfigure
```

A diagram showing a transition from a function call to a recovery state. A blue arrow points from the left box to the right box. The left box is white with a black border, and the right box is gray with a black border. Both boxes contain the same text, but the right box has an additional line at the bottom.

```
sm_fetch_two_table  
_whiskey_pour::recovery  
_screw::StRecoveryScrewThird  
::onSuccess
```
