

boost::statechart::
event< EvToDeep >

```
classDiagram
    class A["sm_packml::EvToDeep"]
    class B["boost::statechart::event< EvToDeep >"]
    A --|> B
```

The diagram consists of two class boxes. The top box, representing the base class, is divided into three horizontal sections. The first section contains the text 'boost::statechart::' on the first line and 'event< EvToDeep >' on the second line. The bottom two sections are empty. The bottom box, representing the derived class, is also divided into three horizontal sections. The top section contains the text 'sm_packml::EvToDeep'. The bottom two sections are empty. A blue arrow with an open triangular head points from the top section of the bottom box to the bottom section of the top box, indicating an inheritance relationship.

sm_packml::EvToDeep
