

```
boost::statechart::  
event< EvMoveGroupMotionExecution  
Succeeded< TSource, TOrthogonal > >
```

The diagram shows a class hierarchy. The base class, `boost::statechart::event< EvMoveGroupMotionExecutionSucceeded< TSource, TOrthogonal > >`, is represented by a white box with a thin black border. The derived class, `cl_move_group_interface::EvMoveGroupMotionExecutionSucceeded< TSource, TOrthogonal >`, is represented by a gray box with a thick black border. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance.

```
cl_move_group_interface  
::EvMoveGroupMotionExecution  
Succeeded< TSource, TOrthogonal >
```
