

```
boost::statechart::  
event< EvKeyPressM<  
    TSource, TObjectTag > >
```

The diagram shows two class boxes. The top box is white and contains the text 'boost::statechart::event< EvKeyPressM< TSource, TObjectTag > >'. The bottom box is gray and contains the text 'keyboard_client::EvKeyPressM< TSource, TObjectTag >'. A blue arrow with an open triangle head points from the bottom box to the top box, indicating inheritance.

```
keyboard_client::EvKeyPress  
M< TSource, TObjectTag >
```
