The diagram shows two class boxes. The top box is white and represents the base class `boost::statechart::event< EvWaypoint208 < TSource, TOrthogonal > >`. The bottom box is gray and represents the derived class `cl_move_base_z::EvWaypoint208 < TSource, TOrthogonal >`. A blue arrow with an open triangular head points from the bottom box to the top box, indicating inheritance. The bottom box has a second compartment containing the attribute `+ waypointIndex`.
