The diagram illustrates an inheritance relationship. A base class box at the top contains the text 'boost::statechart::event< EvWaypoint119 < TSource, TObjectTag > >'. It is divided into three horizontal sections, with the first section containing the text. A derived class box at the bottom, shaded gray, contains 'cl_move_base_z::EvWaypoint119 < TSource, TObjectTag >' in its top section, '+ waypointIndex' in its middle section, and is empty in its bottom section. A blue arrow points from the top of the derived class box to the bottom of the base class box.
