

submodules/fetch\_ros  
/fetch\_ikfast\_plugin  
/include/ikfast.h

```
graph TD; A["submodules/fetch_ros<br/>/fetch_ikfast_plugin<br/>/include/ikfast.h"] --> B["vector"]; A --> C["list"]; A --> D["stdexcept"];
```

The diagram illustrates the dependencies of the `ikfast.h` header file. A central box at the top lists the file path: `submodules/fetch_ros`, `/fetch_ikfast_plugin`, and `/include/ikfast.h`. Three blue arrows point downwards from this box to three separate boxes below it, labeled `vector`, `list`, and `stdexcept`, indicating that `ikfast.h` depends on these standard C++ libraries.
