

```
boost::statechart::  
event< EvWaypoint245  
< TSource, TObjectTag > >
```

The diagram shows a class hierarchy. At the bottom is a grey-shaded class box for `cl_move_base_z::EvWaypoint245`. It has a public attribute `+ waypointIndex`. Above it is a white class box for `boost::statechart::event< EvWaypoint245 < TSource, TObjectTag > >`. A blue arrow with an open triangular head points from the top of the bottom box to the bottom of the top box, indicating inheritance.

```
cl_move_base_z::EvWaypoint245  
  < TSource, TObjectTag >
```

```
+ waypointIndex
```
