

boost::statechart::
event< Ev2 >

```
classDiagram
    class Base["boost::statechart::event< Ev2 >"]
    class Derived["sm_viewer_sim::Ev2"]
    Base <|-- Derived
```

The diagram shows two class boxes. The top box, representing the base class, is white with a black border and contains the text 'boost::statechart::' and 'event< Ev2 >'. It is divided into three horizontal sections by two thin lines. The bottom section is empty. The bottom box, representing the derived class, is gray with a black border and contains the text 'sm_viewer_sim::Ev2'. It is also divided into three horizontal sections by two thin lines. A blue arrow points from the top of the bottom box to the bottom of the top box, indicating an inheritance relationship.

sm_viewer_sim::Ev2
