

smacc/include/smacc  
/client\_base\_components  
/cp\_topic\_subscriber.h

```
graph BT; A["smacc_client_library  
/microstrain_mips_client  
/src/microstrain_mips_client  
/microstrain_mips_client.cpp"] --> B["smacc_client_library  
/microstrain_mips_client  
/include/microstrain_mips_client  
_client/microstrain_mips_client.h"]; B --> C["smacc/include/smacc  
/client_base_components  
/cp_topic_subscriber.h"];
```

The diagram illustrates a dependency chain between three files. At the bottom is a box containing the source file path: 'smacc\_client\_library /microstrain\_mips\_client /src/microstrain\_mips\_client /microstrain\_mips\_client.cpp'. An upward-pointing blue arrow connects this box to a middle box containing the header file path: 'smacc\_client\_library /microstrain\_mips\_client /include/microstrain\_mips\_client \_client/microstrain\_mips\_client.h'. Another upward-pointing blue arrow connects the middle box to the top box, which contains the header file path: 'smacc/include/smacc /client\_base\_components /cp\_topic\_subscriber.h'. The top box has a light gray background, while the other two are white.

smacc\_client\_library  
/microstrain\_mips\_client  
/include/microstrain\_mips  
\_client/microstrain\_mips\_client.h
