

testing::internal::  
HasSubstrMatcher::Describe  
NegationTo

```
graph LR; A["testing::internal::  
HasSubstrMatcher::Describe  
NegationTo"] --> B["testing::internal::  
UniversalPrint"]
```

A diagram showing a transformation from a function call to a function name. A grey box on the left contains the text 'testing::internal::', 'HasSubstrMatcher::Describe', and 'NegationTo'. A blue arrow points from this box to a white box on the right. The white box contains the text 'testing::internal::' and 'UniversalPrint'.
