The diagram illustrates an inheritance relationship. The base class, `boost::statechart::event< EvWaypoint143 < TSource, TObjectTag > >`, is shown in a white box with a thin grey border. It has two empty rectangular compartments below its name. The derived class, `cl_move_base_z::EvWaypoint143 < TSource, TObjectTag >`, is shown in a grey box with a thick black border. It contains the attribute `+ waypointIndex` in its second compartment. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance.
