The diagram illustrates an inheritance relationship. A base class box at the top contains the text 'boost::statechart::event< EvWaypoint222 < TSource, TOrthogonal > >'. A derived class box at the bottom, shaded gray, contains 'cl_move_base_z::EvWaypoint222 < TSource, TOrthogonal >' in its top section, '+ waypointIndex' in its middle section, and is empty in its bottom section. A blue arrow with an open triangular head points from the top of the derived class box to the base class box.
