

```
function< void(std  
::shared_ptr< smacc  
::StateReactor >)>
```

The diagram consists of two rectangular boxes. The top box is white with a black border and contains a C++ function signature. It is divided into three horizontal sections by thin black lines. The bottom section is empty. A vertical line connects the bottom of the top box to the top of the bottom box. On this line, to the right, is the text '+fn'. At the point where the line meets the bottom box, there is a small, hollow diamond symbol, indicating a composition relationship.

+fn

```
smacc::introspection  
::StateReactorCallbackFunctor
```
