

boost::statechart::  
event< EvGlobalError >

```
classDiagram
    class Base["boost::statechart::event< EvGlobalError >"]
    class Derived["sm_dance_bot_2::EvGlobalError"]
    Base <|-- Derived
```

The diagram illustrates an inheritance relationship. At the top is a white rectangular box representing the base class, 'boost::statechart::event< EvGlobalError >', which is divided into three horizontal sections. Below it is a gray rectangular box representing the derived class, 'sm\_dance\_bot\_2::EvGlobalError', also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the derived class box to the bottom section of the base class box, indicating that the derived class inherits from the base class.

sm\_dance\_bot\_2::EvGlobal  
Error
