The diagram shows a base class box at the top and a derived class box at the bottom. The base class box is divided into three horizontal sections. The top section contains the text 'boost::statechart::event< EvWaypoint114< TSource, TOrthogonal > >'. The middle and bottom sections are empty. The derived class box is divided into three horizontal sections. The top section contains the text 'cl\_move\_base\_z::EvWaypoint114< TSource, TOrthogonal >'. The middle section contains the text '+ waypointIndex'. The bottom section is empty. A blue arrow points from the top of the derived class box to the bottom of the base class box, indicating inheritance.
