The diagram illustrates an inheritance relationship. A base class box at the top contains the text 'boost::statechart::event< EvWaypoint221 < TSource, TObjectTag > >'. A derived class box at the bottom, shaded gray, contains 'cl_move_base_z::EvWaypoint221 < TSource, TObjectTag >' and a public attribute '+ waypointIndex'. A blue arrow with an open triangular head points from the derived class to the base class.
