The diagram illustrates an inheritance relationship. The base class, `boost::statechart::event< EvWaypoint212 < TSource, TOrthogonal > >`, is shown in a white box with a grey border. It has two empty compartments below the header. The derived class, `cl_move_base_z::EvWaypoint212 < TSource, TOrthogonal >`, is shown in a grey box with a black border. It has a public attribute `+ waypointIndex` in its second compartment. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance.
