The diagram illustrates an inheritance relationship. A base class box at the top contains the text 'boost::statechart::event< EvWaypoint119 < TSource, TObjectTag > >'. Below it, a derived class box contains 'cl_move_base_z::EvWaypoint119 < TSource, TObjectTag >' followed by a public member '+ waypointIndex'. A blue arrow with an open triangular head points from the derived class box up to the base class box.
