

```
move_base_z_client  
::PlannerSwitcher::setBackward  
    Planner
```

```
graph LR; A["move_base_z_client  
::PlannerSwitcher::setBackward  
    Planner"] --> B["move_base_z_client  
::PlannerSwitcher::updatePlanners"]
```

A diagram showing a sequence of two function calls. The first call, in a grey box, is `move_base_z_client::PlannerSwitcher::setBackward Planner`. A blue arrow points from this box to a second box containing the call `move_base_z_client::PlannerSwitcher::updatePlanners`.

```
move_base_z_client  
::PlannerSwitcher::updatePlanners
```
