The diagram shows a base class at the top and a derived class at the bottom. The base class is white with a black border and contains the text 'boost::statechart::event< EvWaypoint207 < TSource, TObjectTag > >'. The derived class is grey with a black border and contains the text 'cl\_move\_base\_z::EvWaypoint207 < TSource, TObjectTag >' and a public attribute '+ waypointIndex'. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance.
