The diagram illustrates an inheritance relationship. A base class box at the top contains the text 'boost::statechart::event< EvWaypoint131 < TSource, TObjectTag > >'. A blue arrow with an open triangular head points from a derived class box below to the base class box. The derived class box is shaded gray and contains three sections: the first section has 'cl_move_base_z::EvWaypoint131 < TSource, TObjectTag >', the second section has '+ waypointIndex', and the third section is empty.
