    ::onInitialize
```

A diagram showing a call from the `onInitialize` method of the `CpSimulatedGazeboPerception` class to the `simulatedLinkStateCallback` method of the same class. The call is represented by a blue arrow pointing from the left box to the right box.

```
sm_fetch_screw_loop  
_1::cl_perception_system  
::CpSimulatedGazeboPerception  
    ::simulatedLinkStateCallback
