The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class `boost::statechart::event< EvWaypoint248 < TSource, TOrthogonal > >`. It has three horizontal compartments, with the first containing the class name. A blue arrow with an open triangular head points from the bottom of a darker gray box below to the bottom of the top box. The darker gray box represents the derived class `cl_move_base_z::EvWaypoint248 < TSource, TOrthogonal >`. It has three horizontal compartments: the top one contains the class name, the middle one contains the public attribute `+ waypointIndex`, and the bottom one is empty.
