

```
sm_dance_bot_3::OrNavigation  
::loadWaypointsFromYaml
```

```
graph LR; A["sm_dance_bot_3::OrNavigation  
::loadWaypointsFromYaml"] --> B["move_base_z_client  
::WaypointNavigator  
::loadWayPointsFromFile"]
```

A diagram showing a call from a state machine to a client. On the left, a gray box contains the text 'sm_dance_bot_3::OrNavigation' followed by '::loadWaypointsFromYaml' on the next line. A blue arrow points from this box to a white box on the right. The white box contains the text 'move_base_z_client' followed by '::WaypointNavigator' and '::loadWayPointsFromFile' on the next two lines.

```
move_base_z_client  
::WaypointNavigator  
::loadWayPointsFromFile
```
