

```
boost::statechart::  
event< EvKeyPressY<  
    TSource, TObjectTag > >
```

The diagram shows two class boxes. The top box is white and contains the text 'boost::statechart::event< EvKeyPressY< TSource, TObjectTag > >'. The bottom box is gray and contains the text 'cl_keyboard::EvKeyPressY< TSource, TObjectTag >'. A blue arrow with an open triangular head points from the bottom box to the top box, indicating that the bottom class inherits from the top class.

```
cl_keyboard::EvKeyPressY  
< TSource, TObjectTag >
```
