The diagram shows a class hierarchy. The base class is `boost::statechart::event< EvWaypoint241 < TSource, TOrthogonal > >`, represented by a white box with a thin border. The derived class is `cl_move_base_z::EvWaypoint241 < TSource, TOrthogonal >`, represented by a grey box with a thick border. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance.
