The diagram illustrates an inheritance relationship. The base class, `boost::statechart::event< EvWaypoint74< TSource, TObjectTag > >`, is shown in a white box with a black border. The derived class, `cl_move_base_z::EvWaypoint74< TSource, TObjectTag >`, is shown in a gray box with a black border. A blue arrow with an open triangle head points from the derived class to the base class, indicating that the derived class inherits from the base class. The derived class also has a public attribute `+ waypointIndex` shown in its second compartment.
