The diagram illustrates an inheritance relationship. At the bottom is a class box for `cl_move_base_z::EvWaypoint223` with a light gray background. It contains the template parameters `< TSource, TOrthogonal >` and a public attribute `+ waypointIndex`. A blue arrow with an open triangular head points from this class box to a base class box above it. The base class box has a white background and contains the text `boost::statechart::event< EvWaypoint223 < TSource, TOrthogonal > >`. The base class box is divided into three horizontal sections by thin gray lines.
