

```
boost::statechart::  
event< EvWaypoint168  
< TSource, TOrthogonal > >
```

The diagram shows a class hierarchy. At the top is a class box for `boost::statechart::event< EvWaypoint168 < TSource, TOrthogonal > >`. Below it is a class box for `cl_move_base_z::EvWaypoint168 < TSource, TOrthogonal >`. A blue arrow with an open triangular head points from the bottom class to the top class, indicating inheritance.

```
cl_move_base_z::EvWaypoint168  
  < TSource, TOrthogonal >
```

```
+ waypointIndex
```
